FIVE-YEAR SUMMARY OF PROCUREMENT
 OF
 MAPS AND RELATED PUBLICATIONS
 CONDUCTED BY THE
 DEPARTMENT OF STATE
 1955 - 1959

Procurement for the five-year period 1955-1959, totaled 286,742 map sheets and 54,639 publications. During the period map procurement increased from 45,884 sheets to 72,779 sheets, an increase of 58%. The procurement of related publications increased only 23%.

Of the total maps procured, 35% were for the Army Map Service, 34% were for the Department of State, and 21% were for the Library of Congress. The remaining 10% were distributed to the other participating mapping organizations.

Purchases accounted for 46% of the total procurement, exchanges accounted for 37%, and gifts accounted for 17%.

Procurement from the Soviet Bloc totaled almost 10,000 sheets, or three times the procurement effected in the previous five-year period. Procurement was materially improved in all countries except Rumania.

	<u>1955 - 1959</u>	<u>1950 - 1954</u>
USSR	5,806	2,286
Poland	1,697	509
Czechoslovakia	1,411	156
Hungary	639	257
Bulgaria	202	30
Rumania	81	72
Albania	29	-
TOTAL	9,865	3,310

Procurement from Europe, excluding the Bloc countries, was generally steady and satisfactory. Two exceptions were Greece and Yugoslavia.

Procurement in the Near East countries fluctuated from year to year, depending largely on the frequency of visits made by Geographic Attachés. Procurement was fairly steady in India, Ceylon, Pakistan, Lebanon and Israel. Dr. Held's procurement in Iraq in 1958 accounted for two-thirds of the total from the area that year, and one-fourth of the procurement from the area for the five-year period.

In the Far East over 50% of the procurement was from Japan. Procurement in Australia, New Zealand, Malaya and the Philippines was fairly steady. Other countries fluctuated widely with visits of the Geographic Attaché.

Procurement in Africa was dependent on visits by the Geographic Attaché. In British colonial areas and in the Sudan exchanges functioned fairly satisfactorily. In most other areas, including the Union of South Africa, procurement lagged, due primarily to the lack of a Geographic Attaché.

In the Western Hemisphere procurement was most steady from Canada, Argentina, Brazil and Peru. Procurement from other areas fluctuated greatly from year to year.
